Treatment Consent

The permission of a parent or legal guardian is necessary for dental treatment of a minor. As a minor child, it is necessary that a signed permission be obtained from a parent or legal guardian before any dental care can begin. As a parent or legal guardian of the above patient, I acknowledge that the above information is correct and grant "Jackson Pediatric Dentistry, P.C." permission to provide my child's dental and related medical/surgical treatment as deemed necessary, including digital radiographs (x-rays), diagnostic, restorative, oral surgery, and patient management techniques that are reasonable, necessary and advisable. Protective restraints are used when a child might harm themselves or when certain procedures may jeopardize their health and welfare without such restraints. I also authorize the administration of anesthetics or analgesics that are advisable by Dr. Mikhly, such as nitrous oxide (laughing gas).

I have given an accurate report of this patient's physical and mental health history. I have also reported any prior allergic or unusual reactions to medications, latex, foods, or metals, and any other disease or condition, including pregnancy.

I agree to inform Dr. Mikhly and the staff of "Jackson Pediatric Dentistry, P.C." of any changes in the medical history. This authorization is valid until revoked by me in writing.
